Role Of Computer In Repertorization And Different Softwares
Case record
Record Keeping
Potential Differential Field
Essential Evolutionary Totality
The Anamnesis
Cross Repertorization
Gradation Of Remedies By All Different Authors
Case Taking approaches in different patients Approach to a Child
Approach to the Older patient , Approach to the Unconscious patient

Dr. Pande Vibhavari (Clinic) IV BHMS

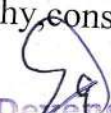

Acute case of Medicine repertorised from Kent's repertory
Acute case of Surgery repertorised from Kent's repertory
Acute case of Obs.-Gyn.repertorised from Kent's repertory
Chronic case of Medicine repertorised from Kent's repertory
Chronic case of Surgery repertorised from Kent's repertory
Chronic case of Obs.-Gyn. Repertorised from Kent's repertory
Case to be cross checked on repertories using Homoeopathic Software

Dr.Khan Matin (Part-I)

1. Introduction to the Concept of Repertorisation and Historical evolution of the Repertory
2. Case Receiving: Principles and Techniques

Dr.Mateen Khan (Part -II)

1. Three Classical Approaches of Repertories like Boenninghausen, Kent, including their life work, concept of totality, philosophy construction, adaptability, special features and criticism.

Dr. Deependra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

2. Classical Approaches of Repertories like Boger including The life work, concept of totality, philosophy, construction, adaptability, special features and criticism
3. Boger's repertories- BBCR, Boger's Synoptic Key, General Analysis, Times of remedies and Moon Phases
4. Robert's Rheumatic Remedies, Clarke's Repertory To Dictionary of Practical Materia Medica
5. Clarke's Prescriber, Boericke's Repertory,
6. Understanding of modern repertories (Complete, Repertorium Generale, J. Kunzli))- their authors - philosophy – application of philosophy to practice
7. Understanding of modern repertories Synthetic, Synthesis, Pathak's Repertory, Phoenix Repertory)- their authors - philosophy – application of philosophy to practice
8. Card Repertories: Evolution and working methods of Card repertories
9. Understanding regional repertories (Bell's Diarrhea, Berridge's eye, Minton's uterine therapeutics,.) – their authors - philosophy – application of philosophy to practice
10. Understanding regional repertories (Yingling's Acoucher's Manual, Respiratory Organs by Nash etc.) – their authors - philosophy – application of philosophy to practice.
11. Clinical application of Kent, Boger And Boenninghausen repertories
12. Study in different chapters of Kent repertory
13. Modern methods of repertorisation

Dr. Khivansara Rashmi (Part –I)

1. General Principles of Repertorization
2. Three Classical Approaches of Repertorization

Dr. Khivansara Rashmi (Part –II)

1. Understanding the relationship between Organon, Materia Medica and Repertory
2. understanding how the integration of the three helps in creation of a Repertory
3. Understanding of Puritan repertories (Lippe, Knerr's repertory, etc) - their authors - philosophy – application of philosophy to practice
4. Understanding of Puritan repertories (Gentry's repertory, Herring's Analytical Repertory of the Mind, etc) - their authors - philosophy – application of philosophy to practice
5. The Clinical Repertories, their authors - philosophy – application of philosophy to practice
6. Sensations as if- Roberts; Allen's Therapeutics of Fevers, Murphy's Repertory
7. Understanding of modern repertories (Complete, Repertorium Generale ; J. Kunzli), Synthetic, Synthesis, Pathak's Repertory, Phoenix Repertory)- their authors - philosophy – application of philosophy to practice.
8. Understanding of modern repertories (Complete, Repertorium Generale , J. Kunzli),
 - i. Synthetic, Synthesis, Pathak's Repertory, Phoenix Repertory)- their authors -
 - ii. philosophy – application of philosophy to practice.
9. Understanding computerized repertories - their creators - philosophy – utilities, approach to Materia medicas and limitations
10. Comparative analysis of the different softwares available in the market like Hompath, RADAR, CARA etc
11. Understanding regional repertories (Respiratory Organs by Nash etc.) – their authors - philosophy – application of philosophy to practice
12. Understanding regional repertories (Yingling's Acoucher's Manual, etc.) – their authors - philosophy – application of philosophy to practice.
13. Concept of Rubric, Sub Rubrics
14. The General Plan and arrangement in various repertories

Aph : 1 – 294 Including footnotes of 5th and 6th editions translated by R.E. Dudgeon and W. Boericke
3. Stuart Close Ch : 1, 2, 4, 5, 6, 8, 17
4. Kent's : 18 – 22
5. Roberts : 1 – 5, 20, 22-33, 35
6. Richard Hughes : 1 - 10
7. C. Dunham : 1 - 7
8. Hahnemann's Chronic Diseases
9. Allen's Chronic Miasms

Dr. Devendra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

Dr. Rasal Prasad (Part-I)

1. Concept of 'Medical Observer' and 'Unprejudiced observer' his 'Mission' and 'Knowledges' as conceived by Hahnemann. Methods to operationalize these in the light of current advances of methods to study man.

2. Homoeopathic case taking and its various *Dos & don'ts*. Relationship with demands placed on the Healing Professions in the Modern World
2. Development of the Scientific Spirit and Methods of Science with reference to Hahnemannian Homoeopathy as a Science. Study of Precursors of Organon- Medicine of Experience, An essay on the New Principles and Study of Editions of Organon in ground plan, Evolutionary study of Principle of Similia, Vital Principle, Posology and its Scientific application in Homoeopathy
3. Concept and Methods of Drug proving integrating modern analytical developments in study of effects of drugs on human organism

Dr. Rasal Prasad (Part-II)

1. Study of Development of Indian and Western Philosophy, Science & Logic to understand their relationship and reflections on development of fundamental principles and concepts of Homoeopathy
2. Comparative study of fundamental principles of different systems of medicine (Isopathy, Ayurveda, Unani, Siddha and modern medicine) with Homoeopathy so as to understand the scope and limitations of each.

Dr. Kakad Vaishali (Part -I)

1. Concept of Symptomatology, Susceptibility, Suppression and its importance in Totality formation-Evolutionary study importance in Health, Constitution, Diathesis, Disease, Recovery, Cure, Drug-effects, Remedy-effects, Suppression and Palliation, Local Application and Remedy-Reaction and regulation so that the various observations made by Hahnemann in the management of Chronic Diseases-One sided, Miasmatic, (Single and Complex), Mental diseases, Intermittent diseases, Surgical diseases, Local diseases.

Dr. Devendra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

2. Concept of Aetiology, Pathology, Clinical Diagnosis, and their importance in understanding Homoeopathic Theory of Chronic Diseases; its Principles, Classification and Identification of the Four Miasmatic Types, their pre- dispositions and Diseases associated with each Type. Combination of Miasms: Concept, Implications and Identification. Representation of the Four Miasmatic Types in the Homoeopathic Materia Medica and Classification of Drugs on Miasmatic Basis. Homoeopathic Management of Miasmatic Disorders and its impact on Therapeutics Principles & Applications of Organon in clinical practice-Management of Acute Diseases-Sporadic, Epidemic, Pandemic

Dr. Kakad Vaishali (Part – II)

1. Hahnemann's Organon of medicine, critical evolutionary study of precursors of Organon and Organon of Medicine 1st Edition to 6th Edition as it evolved and its application in the Clinical set up. Evolutionary study of Principle of Similia, Vital Principle, and its Scientific application in Homoeopathy
2. Evolution of Theory of Chronic diseases –Modern concepts in aetiology, pathology, clinical Diagnosis, and their importance in understanding Homoeopathic Theory of Chronic Diseases.
3. Evolution in Concepts of Drug dynamization and Posology
4. Concept of Non remedial, ancillary methods in treatment of diseases.

Dr. Malokar Deepti (Part –I)

1. Remedy-Selection: Concepts of Individualization; Totality of Symptoms; and Portrait of the Disease Remedy Administration: Potency-selection, Repetition, Second Prescription, Placebo and Remedy Relationship,
2. Concept of Non remedial, ancillary methods in treatment of diseases. Importance of an in-depth study of Aphorisms 1-6 as conveying the Fundamental Approach to the teaching of Organon and Homoeopathic Philosophy

Dr. Malokar Deepti (Part –II)

1. A study & interpretation of views on principles & practices of Homoeopathy by the stalwarts of Homoeopathy like Boenninghausen, Hering, Kent, Boger, Hughes, H.A. Roberts, Stuart. Close, C. Dunham, Farrington, B. K. Sarkar, Ortega & M. L. Dhawale etc.
-Man in Health, Constitution, Temperaments, Diathesis, Disease, Recovery and Cure and its relation to Methods of Case Taking
2. Symptomatology, Classification and Evaluation

3. General pathology, Immunology and its importance in understanding of Susceptibility, Suppression, Miasms and therapeutics.
4. Homoeopathic Theory of Chronic Diseases; its principles and interpretation in the light of present knowledge of medicine. Clinical Classification and Identification of the Four Miasmatic Types, Combination of Miasms: Concept, Implications and Identification of the four Miasmatic Types in the Homoeopathic Materia Medica and its impact on Therapeutics.
5. Remedy Administration: Potency-selection, Repetition, Second Prescription, Placebo and Remedy Relationships.

Dr. Chordiya Nayana (Part –II)

1. Concept of Law of simple/ minimum/ single; Law of Similia: Evolution, Deduction, and Scientific Experimental Proof; Application and Corollaries Concept of the Dynamic action and the dose, in relation to current research in Physics, metaphysics, quantum theory, molecular and nano-medicine.
2. Concept of prophylaxis-Vaccines & it's critical study in relation to principles of Homoeopathic therapeutics.

Dr. Patil Devendra S. (Part – I)

1. Science and philosophy of Hom Materia Medica
2. The nature and scope of Homoeopathic Materia Medica; Definition
3. Comparison of Homoeopathic Materia Medica with other pharmaceutical systems
4. Study of Homeopathic Medicines as per list.

Dr. Patil Devendra S. (Part –II)

1. Different eras & concepts of the earlier times & their influence on the construction of Hom Materia Medica. (Hahnemannian and Post Hahnemannian era Approaches - Kent, Boger-Boenninghausen, Boger, Clinical, Psychoanalytical, Thematic and its clinical application.)
2. Evolution of Hom Materia Medica with focus on the evolving concepts, masters and the books, their construction and utility and its clinical application.
3. Scope & limitation of the current state of knowledge of Homoeopathic Materia Medica with the demands of Clinical Practice and Education.
4. Sources of Hom Materia Medica, Drug proving and Collection of symptoms and its utility in clinical practice
5. Types of Hom Materia Medicas- concept, philosophy, scope and limitation
6. Different approaches of study of Hom Materia Medica i.e. Psycho-clinico-Pathological, Synthetic, Comparative, Analytic and Remedy relationship

7. Study and construction of Materia Medica- building a portrait of artificial disease and drug picture integrating concept studied in Part I

Dr. Patil Devendra (Part -I)

1. Concept of artificial and natural diseases
2. Concept of Drug Proving. Understanding the evolution, philosophy and construction of the source book.
3. Concept of health and developmental study of man. Normal physiological functioning and its development and its application in the study of Hom Materia Medica. Study of Physiological Materia Medica.
4. Concept of causation from the Hahnemannian perspective, viz. fundamental, exciting, maintaining causes and its application in the study of Hom Materia Medica.
5. Bio-Psycho-Social concept of Aetio-pathogenesis and evolution of the disease phenomena to integrate with the study of Hom Materia Medica.
6. Study of Homoeopathic Medicines as per list.

Dr. Patil Devendra (Part-II)

1. Theory of Biochemic system of Medicine and Biochemic Medicines
2. Group study of Hom Materia Medica
3. Comparative Materia Medica: from symptomatic, regional location, closely coming drug pictures and group symptoms.
4. Application of Materia Medica in field of Medicine Surgery and Gynecology- Obst
5. Mother Tinctures, Nosodes (including Bowel Nosodes), Sarcodes and Bach Flower therapy
6. Repertorial Techniques for the evolution of the Drug Pictures from Symptoms (Kent, BBCR, Boger, Boericke Repertory)
Hom Materia Medica of acute illnesses, emergencies

Dr. Pingale Rahul (Part- I)

1. Study of normal structural organisation of man and its application in the study of sphere of action of remedies
2. Development and maturation of mind from childhood to old age-normal characteristics and the relevance and application to Homoeopathic materia Medica
3. Study of mental symptom, mental state, disposition, constitutions, temperaments and evolutionary study of Hom Materia Medica
4. Clinico-pathological correlations of the diseases and integrating pathogenesis in study of Hom Materia Medica
5. Study of Clinical Materia Medica and its practical application at the bedside
6. Study of Homoeopathic Medicines as per list.

Dr. Devendra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

Dr. Pingale Rahul (Part –II)

1. Study of Hom. Drugs/ Medicines as per list.
2. Congestive Group
3. Spasmodic & Irritable Group
4. Digestive Drugs
5. Respiratory Drugs
6. Debility Group
7. Kali Group
8. Baryta Group
9. Alumina, Silica and Carbon Group
10. Mercury Group and Antisyphilitics
11. Spider Venoms
12. Hysterical Group
13. Halogen Groups & Related Drugs
14. Miscellaneous
15. Animal Kingdom
16. Vegetable group
17. Chemical Approach to the Study of Homoeopathic Materia Medica

Dr. Mandule Shital (Part-I)

1. Clinical Materia Medica
2. Physiological Materia Medica
3. Sources of Materia Medica
4. Study with Clinico-Pathologico-miasmatic correlations
5. Study of Homoeopathic Medicines as per list.

Dr. Mandule Shital (Part-II)

1. Study of Hom. Drugs/ Medicines as per list.
2. Injuries, Rheumatic States; Neuralgias
3. Urinary Drugs
4. Rectal Drugs
5. Heart Drugs
6. Natrum Group
7. Calcarea Group
8. Magnesia Group
9. Phosphorus and Tuberculinum
10. Snake Venoms & Sepsis
11. Argentum Group & Related Drugs

Dr. Devendra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

Part III - Serial No – I

Academic details - Department of Paediatrics

Academic Planner/ Advance Teaching Plan - Available

Department of Paediatrics

Topic Distribution

Dr. Varpe Yogita (Part – I)

1. Introduction to the Practice of Evidence based paediatrics
2. Developing a Basic Clinical Approach-
Normal embryological and development and growth of a child, the range of abnormality and its utility in understanding the child. Learning the fundamentals of intensive care of neonates.
3. -Role of control systems (Psycho-Neuro-Endocrine axis and the Reticulo-endothelial System) in the maintenance of Health and initiating the process of breakdown and onset of illness.
Understanding the different components which influence health at individual, family and community level leading to insight into preventive and community Paediatrics through Hahnemannian philosophy of holistic care.
4. 1) Understanding the bio-psycho-social and environmental model of Etiology and correlating with the Hahnemannian concept of causation and evolution o disease in the growing child.
2) Development of a Symptom as an indication of loss of functional competence followed by loss of structural integrity- the pathogenesis of symptom formation and the Hahnemannian concept of disease and its expression.

Dr. Devendra S. Patil
Principal
Vamanrao Ithape Homoeopathic
Medical College, Sangamner

5. 1) Bed side- General and Systematic examination and understanding their basis.
- 2) Role of physical examination and clinical investigation in the study of disease and miasm.
6. Importance of different diagnosis- probable diagnosis and final diagnosis.
 - Understanding the process of labour and role of pediatrician in labour room and Operation Theater during child birth and learning the skill of handling newborn baby and neonates.
7. Studying the Cardinal Manifestations of disease In Neonates---
 - 1) Alterations in cry- excessive/weak/poor
 - 2) Alternation in activity- hyperactivity/ drowsiness
 - 3) Alteration in suck—poor sucking.
 - 4) Alteration in feeding habits—refusal to feeds
 - 5) In older children - Fever- types
 - 6) Alteration in growth and development
 - 7) Alterations in nutritional functions
 - 8) Alteration in Respiratory functions
 - 9) Alteration in Gastrointestinal functions
 - 10) Alteration in cardiac and circulatory
 - 11) Alteration in excretory functions
 - 12) Hematological Alterations
 - 13) Alteration in Nervous system functions
 - 14) Diagnostic procedures

Dr. Varpe Yogita (Part –II)

- 1) Vital Statistics
- 2) Growth And Development: Normal And Abnormal
- 3) Nutrition
- 4) Immunization
- 5) Neonatology
- 6) Genetics
- 7) Community Paediatrics
- 8) Behavioural And Developmental Problems
- 9) Pediatric Surgical Problems
- 10) Paediatric Emergencies

Dr. Shejwal Karuna (Part – I)

- 1) Developing a Basic Clinical Approach- Correlative study of Normal Structure and function in an evolutionary way to reveal Structural and functional integrity of the child in health. This includes physical (Structural & functional) & (Personality) growth & development of the Infant, Child & Adolescent.

Dr. Devendra S. Patil
 Principal
 Vamanrao Ithape Homoeopathic
 Medical College, Sangamner

- 2) Embryological Development includes influence of Maternal Health-mental and physical on the Foetus. Considering mother ---foetus--- neonate as a unit is the key to the treatment of neonates. So approach to the neonate is actually to this unit.
- 3) Understanding the concept of predisposition and disposition and its influence on development of diseases including genetics and congenital
- 4) Clinico- pathological correlations and the concept of a syndrome and its utility in understanding miasmatic evolution
- 5) Role of physical examination and clinical investigation in the study of disease and miasm.
- 6) Identifying Abnormal Psychological development and Pathology in the developing stages in order to prevent their full-scale development of modify the expression.
7. Studying the Cardinal Manifestations of disease
In Neonates---
 - 1) Alterations in cry- excessive/weak/poor
 - 2) Alternation in activity- hyperactivity/ drowsiness
 - 3) Alteration in suck—poor sucking.
 - 4) Alteration in feeding habits—refusal to feeds
 - 5) In older children - Fever- types
 - 6) Alteration in growth and development
 - 7) Alterations in nutritional functions
 - 8) Alteration in Respiratory functions
 - 9) Alteration in Gastrointestinal functions
 - 10) Alteration in cardiac and circulatory
 - 11) Alteration in excretory functions
 - 12) Hematological Alterations
 - 13) Alteration in Nervous system functions
 - 14) Diagnostic procedures

Dr. Shejwal Karuna (Part – II)

1. Infectious Diseases
2. Hematology
3. Respiratory System
4. Gastro Intestinal Tract
5. Central Nervous System
6. Cardiovascular System
7. Genitourinary System
8. Endocrinology
9. Fluid-Electrolyte Imbalance
10. National Health Programmes
